SimpleLock: the simple and secure door holding solution.

Designed to meet the needs of urban distribution, SimpleLock will make your deliveries easier and safer.

A patented Lecapitaine product

To access the goods, a powerful magnetic system holds the doors open. The doors are released effortlessly with a simple & intuitive handle movement.

THE BENEFITS OF SIMPLELOCK

SAFETY

- Doors held securely
- Minimal space between the side wall and door to avoid being caught by the wind and reduce the risk of accidents for delivery staff and pedestrians
- Reflective handle for improved visibility

ERGONOMICS

- Simple and intuitive movement to close the doors (reducing the risk of musculoskeletal disorders for transport professionals)
- Clever position for ergonomic use

PERFORMANCE

- Studies and tests conducted to ensure optimal mechanism strength

HYGIENE

- Smart handle position in clean area
